

ATTIC INSULATION APPLICATION

Applications will only be processed if fully completed and signed. Once completed, submit application and proof of purchase to your electric utility provider. Contact your local utility with any questions.

1. Customer Name: _____ **Utility:** _____

Account #: _____ Phone #: _____

Address & City: _____

Installation Address & City (if different from above): _____

2. Name of Contractor (if applicable or note "self-installed"): _____

Address & City: _____

3. Insulation Information:

Total attic area	Total area insulated	Existing depth before adding insulation	New Insulation added	Total depth after adding insulation
Sq. Ft.	Sq. Ft.	In.	In.	In.

Type of new insulation: Loose fill Fiberglass batt Rigid foam board Other:

Primary Heating:

- Electric furnace
- Baseboard
- Cove heating
- Geothermal Heat Pump
- Air-Source Heat Pump – fossil fuel
- Air-Source Heat Pump – with electric furnace

Primary Cooling:

- Heat Pump
- Central air-conditioner
- Window AC
- None

Rebate amount: _____ sq. ft. x \$0.30 = \$_____ (not to exceed \$600 per dwelling)

Area to be insulated must originally average six inches or less of insulation and add at least six inches or R-19 to the attic. To be eligible, customers must have a heat pump, electric furnace, or electric heat (baseboard, radiant, etc.) Installations must be in compliance with program terms and conditions.

4. Application Process:

Complete application and submit with proof of purchase to your local electric utility. Program guidelines can be found at www.EnergyWiseNebraska.com. Participating utilities have the right to limit the quantity of incentives.

TERMS & CONDITIONS

PROOF OF PURCHASE: Sales receipt(s) or invoice(s) identifying the type, amount, and purchase date must accompany each insulation efficiency incentive application.

INCENTIVE OFFER: This energy efficiency incentive program covers the cost of attic insulation and installation during the program year in which it is purchased and installed. Program incentives will be calculated at a rate of installation area times \$0.30 per square foot and are limited to \$600 per dwelling. Existing attic insulation levels must average six (6) inches or less and at least six (6) inches or an additional R-19 must be installed. Insulation must be purchased and installed on or after January 1, 2023. Details of this program, including incentive levels, are subject to change without notice. The electric utility reserves the right to limit incentives.

ELIGIBLE CUSTOMERS: Eligible customers must use electricity as their primary fuel source for heating. Customers that utilize a natural gas or propane furnace as a backup to an air source heat pump do qualify. Program is for existing residential dwellings only. Duplex and multi-family dwellings that are individually metered (*not master-metered*) are eligible for one incentive per dwelling. **NEW CONSTRUCTION AND/OR ADDITIONS DO NOT QUALIFY!**

ISSUING INCENTIVES: Insulation must be purchased and installed before an energy efficiency incentive is issued. Falsifying any information may lead to cancellation of this and future incentive applications, a claim by the electric utility for the return of any incentive, and/or referral for prosecution. Please allow 45 days for delivery of incentives. Submitting an application with incomplete or missing information may delay processing of the incentive. Electric utility incentives will not exceed \$600 per dwelling. At their discretion, the issuing electric utility may provide the incentive in the form of a rebate check or a credit on the customer's account.

APPROVAL & VERIFICATION: The electric utility reserves the right to verify sales transactions and inspect all insulation projects prior to and after installation.

TAX LIABILITY: Neither the electric utility nor Nebraska Public Power District are responsible for any tax liability imposed on the customer as a result of the energy efficiency incentive.

ENDORSEMENT: Neither the electric utility nor Nebraska Public Power District endorses any particular manufacturers, products, nor system designs in promoting this program.

SAFETY & BUILDING CODES: The customer/contractor agrees that each measure complies with all federal, state, and local safety, building, and environmental codes. All products must be UL-listed and installed per manufacturer's instructions.

DISCLAIMER OF WARRANTIES: Neither the electric utility nor Nebraska Public Power District warrant the performance of any material either expressly or implicitly. Contact the supplier or contractor for details regarding material warranties.
